We invite you to join us on March 20th to hear Reverend Michael Dowd share a gospel that's billions of years old! Find out why Americans everywhere are engaging in a life-changing new conversation about Creation. Endorsed by Nobel Prize winning scientists and religious leaders across the spectrum, Michael's bold new book builds bridges, provides guidance, and restores realistic hope for virtually everyone, regardless of belief or worldview. Fun and uplifting, *Thank God for Evolution* will go beyond the current debate to offer up a whole new way of thinking about science and religion.

Rev. Michael Dowd

The Reverend Michael Dowd is America's evolutionary evangelist. Highly in demand as a speaker, Rev. Dowd is the author of *Thank God for Evolution: How the Marriage of Science and Religion Will Transform Your Life and Our World*. He has dedicated his life to proclaiming the "Great News" of a sacred view of cosmic, biological, and human evolution. As a Christian minister, Dowd especially addresses the concerns that Christians have about evolution, and shares insights that will appeal to all people of faith and of no faith. He and his wife, Connie Barlow, an acclaimed science writer, have spoken to more than a thousand groups since launching their itinerant ministry in 2002.

At home in both liberal and conservative settings, and uniquely gifted at building bridges between religious and non-religious people, Michael shares the Epic of Evolution, our common creation story, in ways that uplift and expand heart, mind, and soul. His passion is showing how an evolutionary understanding of human nature can inspire and empower each of us to live with greater integrity, joy, and zest for life.
